

OOP – Project1

Mateusz Barski

Citizen Register

- New citizens can be added.
- Information about Citizens can be displayed.
- Profession can be set for each citizen.
- Spouse can be set for pair of citizens.
- Citizen's spouse history can be checked.

Problems

- Only minor issues created by my lack of knowladge about java.

What I have learned.

- Java.

What could be improved?

- Adding a date for each update of information.
- Saving information about what have been updated.
- Displaying additional data.

The end
